HARSHALI DUSE

UI/UX Designer

Pune, Maharashtra | harshaliduse03@gmail.com | +91 9011793885 | LinkedIn | Behance

PROFESSIONAL SUMMARY

UI/UX Designer with hands-on, full-lifecycle product design experience — user research, usability analysis, wireframing, user flows, mockups, and interactive prototyping through to high-fidelity UI and design handoff. Skilled in Figma-based design, design systems, information architecture, and responsive, mobile-first design for web and mobile applications, converting business and user requirements into clean, intuitive UI/UX solutions for B2B platforms and consumer apps. Strong attention to detail and creative thinking, with proven experience collaborating with product, business, and technology teams. B.Des graduate seeking a UI/UX Designer Apprentice role.

TECHNICAL / DESIGN SKILLS

UI/UX Design: UI Design, UX Design, UX Research, Usability Analysis, User-Centered Design, Design Thinking, Information Architecture, User Flows, Wireframing, Mockups, Prototyping, Interactive Prototypes, High-Fidelity UI Design, Interaction Design, Visual Design

Responsive & Systems: Responsive Design, Mobile-First Design, Dashboard Design, Design Systems, Component Libraries & Reusable UI Elements, Design Specifications & Handover, Mobile App Design, Web Design

Research & Testing: User Personas, User Journey Mapping, Usability Testing, Competitor Analysis, Heuristic Evaluation, Accessibility (WCAG)

Tools: Figma, FigJam, Miro, Balsamiq, Notion, Adobe Photoshop, Adobe Illustrator, Sketch, Material Design 3

Collaboration: Cross-Functional Collaboration with Product, Business & Technology Teams, Design Handoff, Communication, Time Management, Attention to Detail

AI Tools: Claude, ChatGPT, Figma AI, Uizard — used for UX research synthesis, content drafting, and accelerating wireframe-to-UI workflows

EXPERIENCE

UI/UX Design Intern — Coreflex Solutions Pvt. Ltd. *Jan 2026 – Jul 2026*

- Designed the end-to-end UI/UX for an Employee Wellness Tracker mobile application, from user research and wireframes through interactive prototypes and high-fidelity UI, to promote employee health and engagement.
- Created user flows, wireframes, mockups, and interactive prototypes in Figma, maintaining consistency in layouts, typography, colours, components, and design patterns.
- Developed a gamified experience with rewards, streaks, and leaderboards, and built a scalable Figma design system of reusable UI components.

UI/UX Design Intern — Coreflex Solutions Pvt. Ltd. *Jun 2025 – Aug 2025*

- Designed wireframes and user flows for FrieslandCampina's B2B ordering platform, converting business and user requirements into effective UI/UX solutions.
- Redesigned the Orders and Contact pages to improve usability and navigation for B2B buyers, based on usability analysis of the existing interface.
- Collaborated with cross-functional product, business, and technology teams to deliver user-centered solutions aligned with business goals.
- Prepared design specifications and handover assets for development teams to ensure accurate implementation.

UI Design Intern — ArtBuzz Advertising Agency *Jun 2024 – Aug 2024*

- Designed wireframes, user flows, interactive prototypes, and high-fidelity UI for a live F&B website project using Figma.
- Applied user-centered design principles and responsive design practices, collaborating with the design team from concept through final delivery.

PROJECTS

CoreHealth — Employee Wellness Tracker (Mobile App)

- End-to-end UI/UX for a wellness app with activity tracking, goals, rewards, and leaderboards — UX research, wireframes, mockups, high-fidelity UI, interactive prototypes, and a scalable Figma design system.

FrieslandCampina — B2B Ordering Platform

- Wireframes, user flows, and high-fidelity UI for a B2B ordering platform — redesigned Orders and Contact pages and added advanced filtering for easier order management.

Pune Metro — Omnichannel Service Design

- Designed a seamless experience across app, kiosks, signage, and ticketing — user research, personas, journey maps, and service blueprints to improve passenger navigation and accessibility.

EDUCATION

Bachelor of Design (B.Des) — MIT School of Design *2022 – 2026*
